Visibility and control over your entire tool inventory

Stop

Stalled productivity
Tool losses
Missed warranty claims
Missed calibration or maintenance events underutilisation or misuse of your tools

Know

Where your tools are
Who has them
When they are due back
What they are being used for
In organisations where accountability of tools and equipment is essential, Hardcat Tool Manager lets you know exactly where all your tools and equipment are, where they have been, and who has been responsible for them at any given time.

**INVESTMENT**

Hardcat Tool Manager starts from as little as $5000 USD and as the solution is modular, you only pay for those modules your organisation requires. Hardcat Tool Manager can accommodate organisations with a few hundred tools to those with a few hundred thousand tools.

**INVENTORY**

Hardcat Tool Manager allows companies to structure and categorise their entire tools and equipment register within the core module and at the same time collect, track and report on a wealth of information about each piece of equipment.

Information held against each item can be accessed and sorted by virtually any field. Each item in the database can have as many as 10,500 associated fields.

- Asset details (type, serial number, description, GPS coordinates, barcode etc)
- Asset type/sub-type - unlimited configurable hierarchy
- Product type
- Purchase price, current value
- Warranty/maintenance/calibration dates
- Components (children assets) and attachments
- Locations - unlimited configurable hierarchy
- Person - unlimited configurable hierarchy
- Supplier and maintenance provider
- Complete history log per item in database
- Cost centre and ownership
- 9999 user definable fields per item

**TAGGING**

Tools can be identified either by directly marking the tool or applying a tag. Hardcat Tool Manager accommodates all different options available for marking your tools and equipment such as:

- Barcodes
- QR Codes
- Dot Peening
- RFID
- NFC

**PERSONNEL**

Hardcat Tool Manager provides detailed records for each staff member as well as external contractors. Staff members can be identified via:

- RFID/barcode staff cards
- Biomatrix
- Looked up via staff database

See what staff members have which tools, how long they have had them for, what they are using them for and when they are due back.

**ISSUE AND RETURNS**

Simplify the process of checking out or issuing of tools and equipment.

- Reduce tool and equipment loss and misuse
- Track the equipment across multiple locations and jobsites
- Fully searchable and auditable procedure
- Eliminates lines at workshops

**VISIBILITY, NOTIFICATIONS AND REPORTS**

Simple and detailed reporting with user defined dashboards and alerts, offers user complete visibility and control of their tool inventory.

- Over 200 standard reports
- User defined reports
- Available in PDA, email, Excel or dashboard
- Scheduled or ad hoc
- Automatic alerts
Hosted either on a centralised server or delivered on a single terminal point solution - Hardcat Tool Manager accommodates all sizes of companies.

**MOBILITY**

Hardcat Tool Manager is available on the web, mobile PDA devices, tablets and mobile phones allowing tool management to happen in the field and on job sites.

The Hardcat Tool Manager mobile phone app “MICAT” allows users to view and edit:
- All tools that have been issued to them
- Condition and location of tool
- See maintenance and calibration schedules or workorders on the tool
- Create ad hoc workorders
- Allow change of ownership of tool

**MAINTENANCE /CALIBRATION**

Set common tasks or templates and automatically schedule work orders for maintenance, inspections and calibrations on all tools and equipment.

**CONSUMABLES/STOCK**

Track parts and consumables, know the quantities and where the items are located as well as tracking how, when, by whom and how much is being consumed.

- User defined reorder alerts
- Audit trail of stock usage
- Automated process of stock taking ensuring accuracy

**AUDIT AND CONTROL**

Hardcat Tool Manager allows you to know exactly where all you tools and equipment are, where they have been and who has been responsible for them at any given time.

Each tool or piece of equipment as well as person in the Hardcat data base has its own comprehensive audit trail.

Audit trails cannot be altered providing management with full chain of custody of each tool from procurement through to disposal.

“**When you use a system in a theatre of war, it has to be 100% solid, that was our major consideration in choosing Hardcat.”**

UK Ministry of Defence (UK)

“**Your system is awesome. It is the best I have ever worked with.”**

Bostik

“I believe Hardcat could become the next best thing since Excel for businesses.”

Mc Clain Consulting (San Francisco USA)

“**Hardcat is economical, easy to use, and full of standard and optional features.”**

Ernst & Young

“As a professional Project Manager, I have no hesitation in recommending Hardcat. It is truly one of the great, Australian software success stories.”

Rob Marx (Project Manager)
