## Reasons to buy Hardcat

### 1. Hardcat is a world leader in Fixed Asset Management

Represented in over 120 countries and utilized by over 2,000 blue chip organisations, Hardcat has specialised in asset management solutions and services for over 34 years.

### 2. One-stop shop

Hardcat can provide integrated hardware, modular software components and professional services designed to provide you with control of your assets.

### 3. Flexible tailored solutions

Hardcat's solutions meet all of your asset management requirements, and provide a foundation for future growth as your business requirements grow.

Hardcat's range of software modules and professional services can be tailored to meet your specific business requirements, from simple data capture and audit projects to integrated asset and maintenance management systems.

### 4. Save you time and money

Controlling your assets will make real savings by enabling you to reduce capital overspend by eliminating unnecessary asset purchases, reducing your overall maintenance costs, and reducing processing costs for purchases and disposals.

### 5. Improve your business forecasts and budgets

Improved asset information will enable more accurate planning of future projects and provide more accurate budgeting and forecasting of capital and maintenance expenditure. Knowing the Total Cost of Ownership (TCO) of your asset base, you will be able to allocate funds to other business opportunities with confidence.

### 6. Peace of mind

Hardcat can help your organisation meet its regulatory compliance obligations by providing accurate and up to date asset information that you can rely on. Our proven project methodology is used around the world to provide asset audits and asset register health checks.

In-built access, function and data security, coupled with comprehensive audit trails ensures the accuracy of the information maintained in Hardcat.

### 7. Enforce organisational standards for efficiency

Use of integrated software modules and processes delivers organisational efficiencies by enforcing standards across different business functions, which reduces bottlenecks, provides for more efficient "hand-overs", and reduces overall labour costs and time to completion.

### 8. Risk Management

Accurate asset information will enable your organisation to reduce the incidence of asset "leakage" or theft with improved tracking and reporting capabilities. Accurate and consistent management of asset maintenance schedules ensures the risk of injury and subsequent litigation is minimised.

### 9. Maximise your investment

Hardcat's modular approach allows you to purchase only the functionality and licences you require for your immediate business needs, without having to purchase functions and seats you do not need. Additionally, Hardcat can interface to other applications so that you continue to benefit from your investment on other critical business systems.

### 10. We will help you grow your business

With Hardcat looking after your asset management requirements, you will be able to focus your energies and resources on doing what you do best, growing your own business.
