Enterprise Asset Management Overview

# Who is Hardcat?

Hardcat Lebosy is a sophisticated, contemporary, modular system for managing fixed assets, property and evidence, as well as preventative and reactive service job management.

Hardcat pioneered the use of barcode asset tracking, cutting time and cost of physical asset auditing to a fraction of the time taken with manual techniques.

Hardcat software solutions are a comprehensive and structured approach to the long-term management of assets, expensive tools and equipment, property and evidence.

Hardcat's **proven asset management process** delivers measurable value and major cost savings.

## Audit

Periodic audits confirm location, assigned person, custodian, and condition. An audit outcome may be specified (e.g.. audited, not found, unexpected), along with follow-up actions (e.g.. re-audit, move, repair).

---

## Service Jobs

Manage reactive and preventative service jobs. Service jobs are raised against a location, assets, or ad-hoc to track general problems. activities. Users can generate service jobs automatically for assets or locations, based on product type and/or product.

---

## Search

Comprehensive search capabilities. The search is 'parameter type aware' i.e., greater, less than, or within a specified range. Users can also use strings, numeric, currencies, and Boolean field types.

---

## Ownership

Each asset has an organisation unit field which shows ownership.

---

## Check-in/Check-out

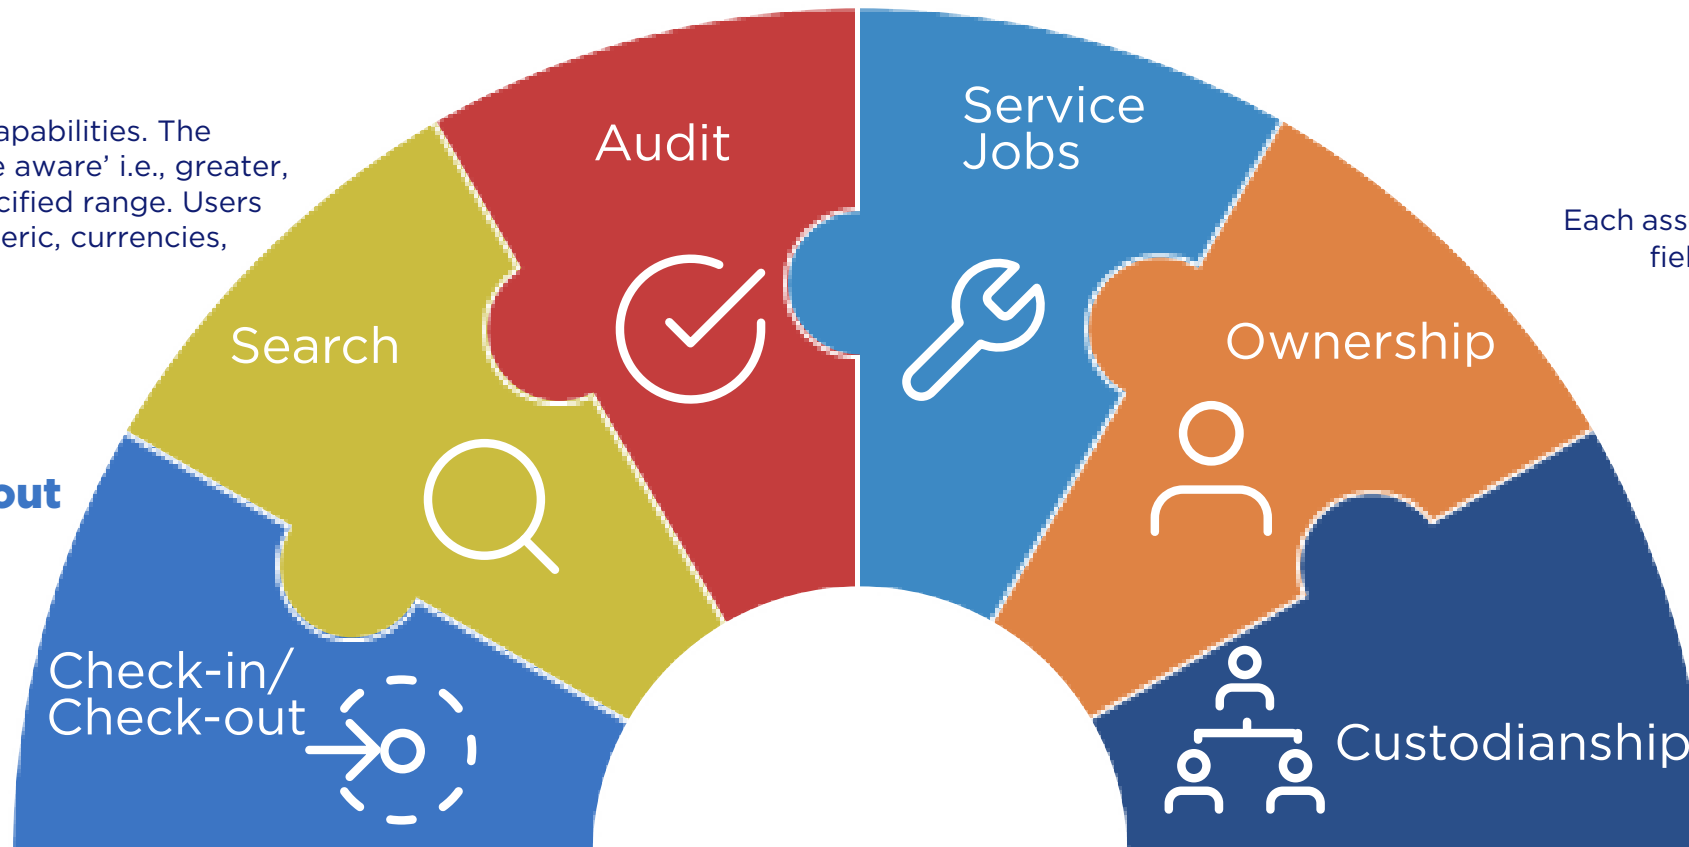

Users can construct a transaction and manage work-flow for the change of asset location.

---

## Custodianship

Track the organisation unit to which the asset is currently loaned and/or assigned to for operational custodianship.

---

# Why control assets?

Governance and Compliance

Aligned to strategic asset management plan

Risk Mitigation

Public safety and maintenance of assets

Valuation

Conduct valuation audits – know the true value of your assets

Cost savings

Informed utilisation and procurement decisions

Insurance

Accurate records for quick and accurate claims

Sustainability

Make informed decisions on utilisation and disposal measures

# What Hardcat provides

Assets and Stock (Inventory) Management – Asset Management Software

Equipment and Evidence Management – Law Enforcement/Police Software

Mobile Tracking Technology – Drive efficiency in Tagging, Tracking and Auditing

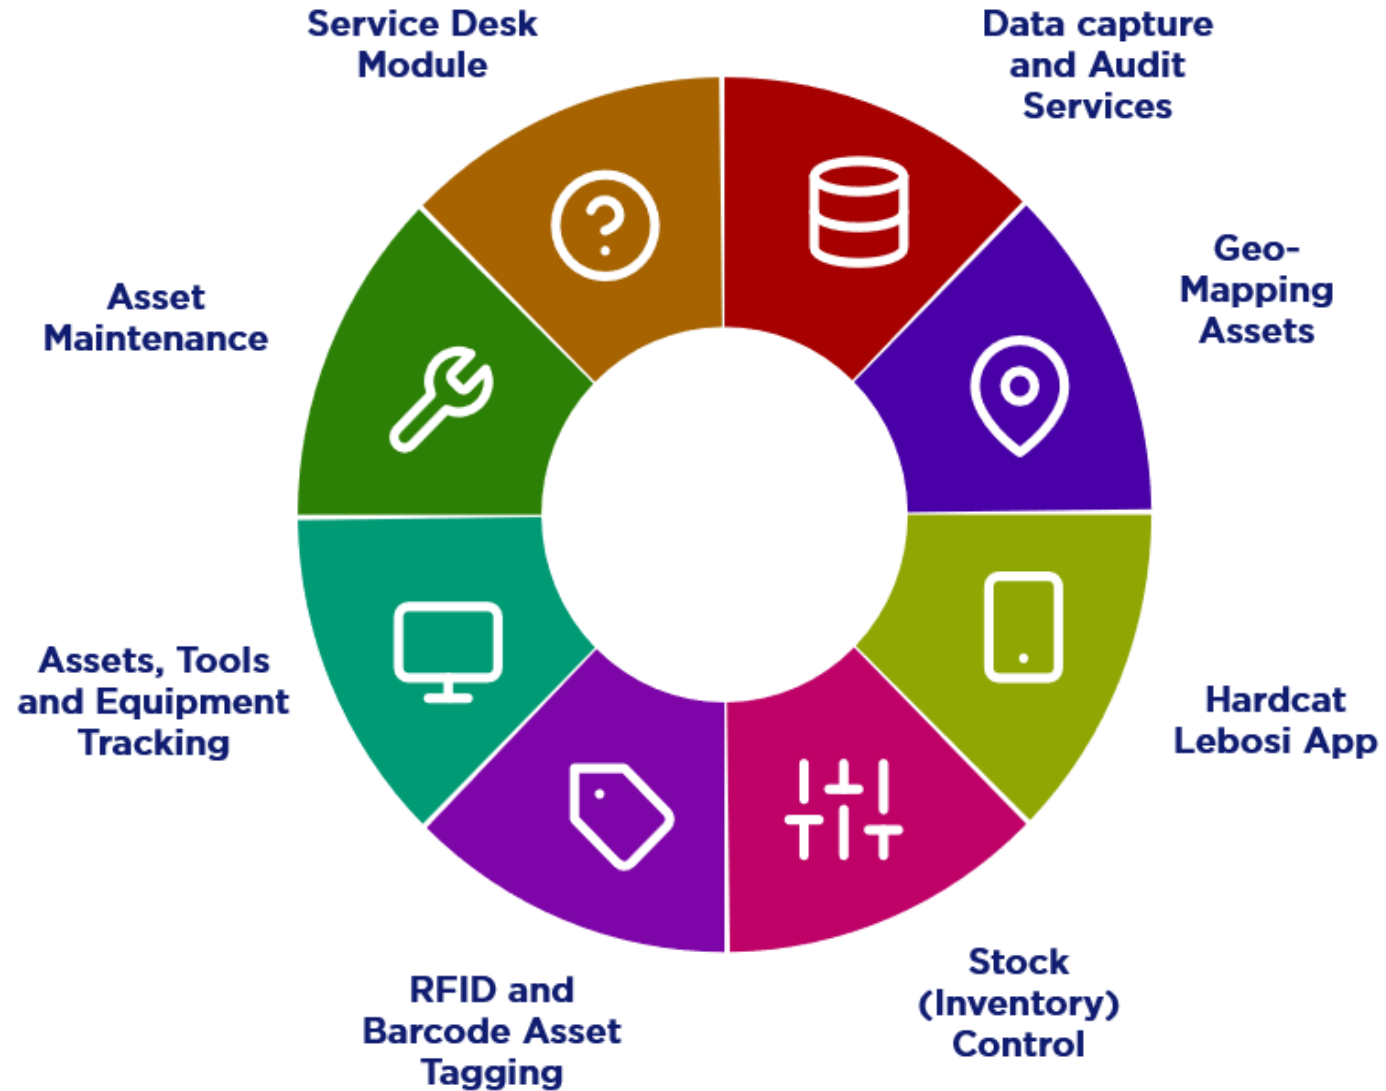

Barcode and RFID – Assets and Equipment Tagging Solutions

Mobile Application – Asset Tracking, Work Orders and Auditing

Maintenance Management – Critical Insights

Service Desk – Log Problems and Issues

Hardcat Professional Services – Leverage Our Experience

## ✓ **Hardcat is a World Leader in Asset Management**

Represented in over 121 countries and utilised by over 2,000 blue chip organisations, Hardcat has specialised in asset management solutions and services for over 34 years.

## ✓ **One-Stop Shop**

We provide integrated hardware, modular software components and professional services designed to provide you with complete control of your assets.

## ✓ **Flexible Tailored Solutions**

Our range of software modules and professional services are tailored to meet your specific requirements, from simple data capture and audit projects to integrated asset and maintenance management systems.

## ✓ **Saving You Time and Money**

Controlling your assets creates real savings by enabling you to reduce capital overspend by eliminating unnecessary asset purchases, reducing overall maintenance costs, and reducing processing costs for purchases and disposals.

## ✓ **Improve Your Business Forecasts and Budgets**

Improved asset information enables more accurate planning of future projects and provides more accurate budgeting and forecasting of capital and maintenance expenditure. Knowing the Total Cost of Ownership (TCO) of your asset base, you will be able to allocate funds to other business opportunities with confidence.

## ✓ Peace of Mind

Meet regulatory compliance obligations by providing accurate and up to date asset information that you can trust. In-built access, function and data security, coupled with comprehensive audit trails, ensure the accuracy of the information maintained in the Hardcat software solution.

## ✓ Enforce Organisational Standards for Efficiency

Integrated software modules and processes deliver organisational efficiencies by enforcing standards across different business functions, which reduces bottlenecks, provides for more efficient “hand-overs”, and reduces overall labour costs and time to completion.

## ✓ Risk Management

Accurate asset information will enable your organisation to reduce the incidence of asset “leakage” with improved tracking and reporting capabilities. Accurate and consistent management of asset maintenance schedules ensures the risk of injury and subsequent litigation is minimised.

## ✓ Maximise Your Investment

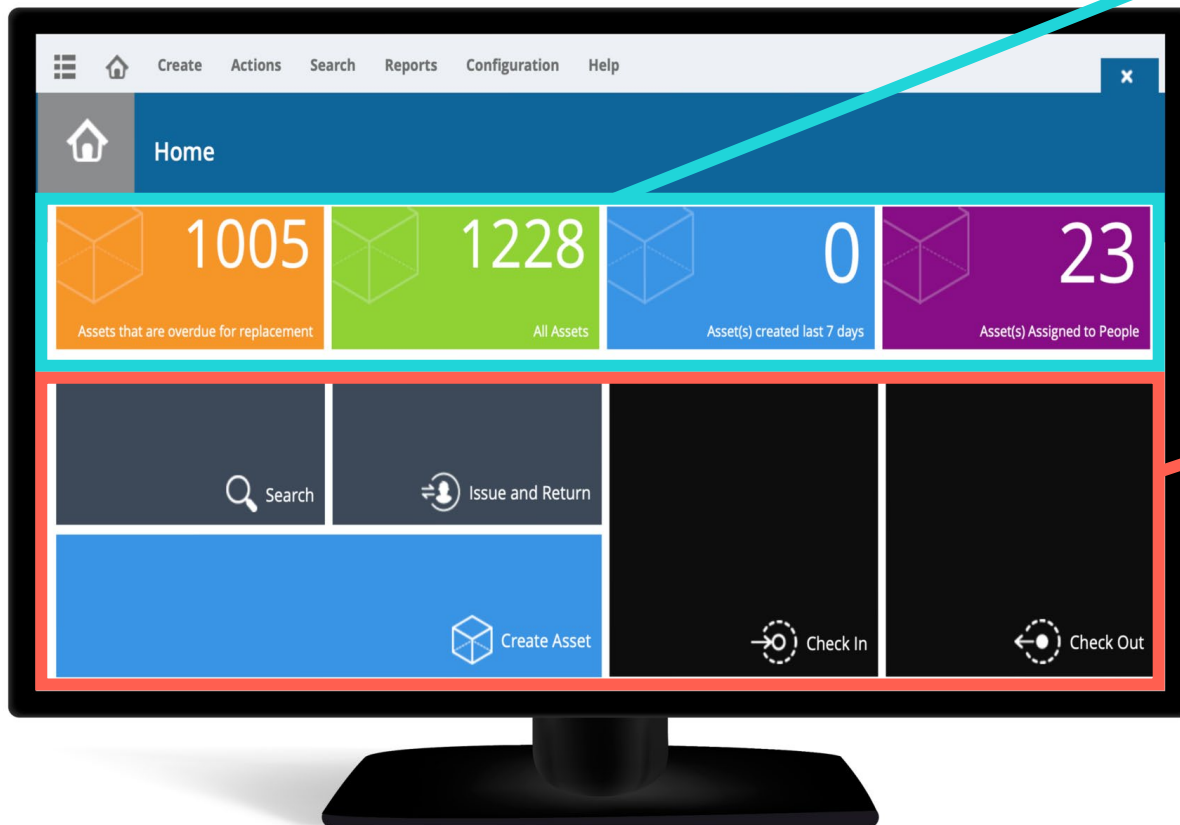

Our modular approach allows you to purchase only the functionality/licenses required. Additionally, Hardcat can interface to other applications so that you continue to benefit from your investments in other critical business systems.

## ✓ We will Help You Grow Your Business

Hardcat looks after your asset management requirements, so you can focus your energies and resources on doing what you do best, growing your own business.

Dashboards are role based within a site and configured to each customer and roles

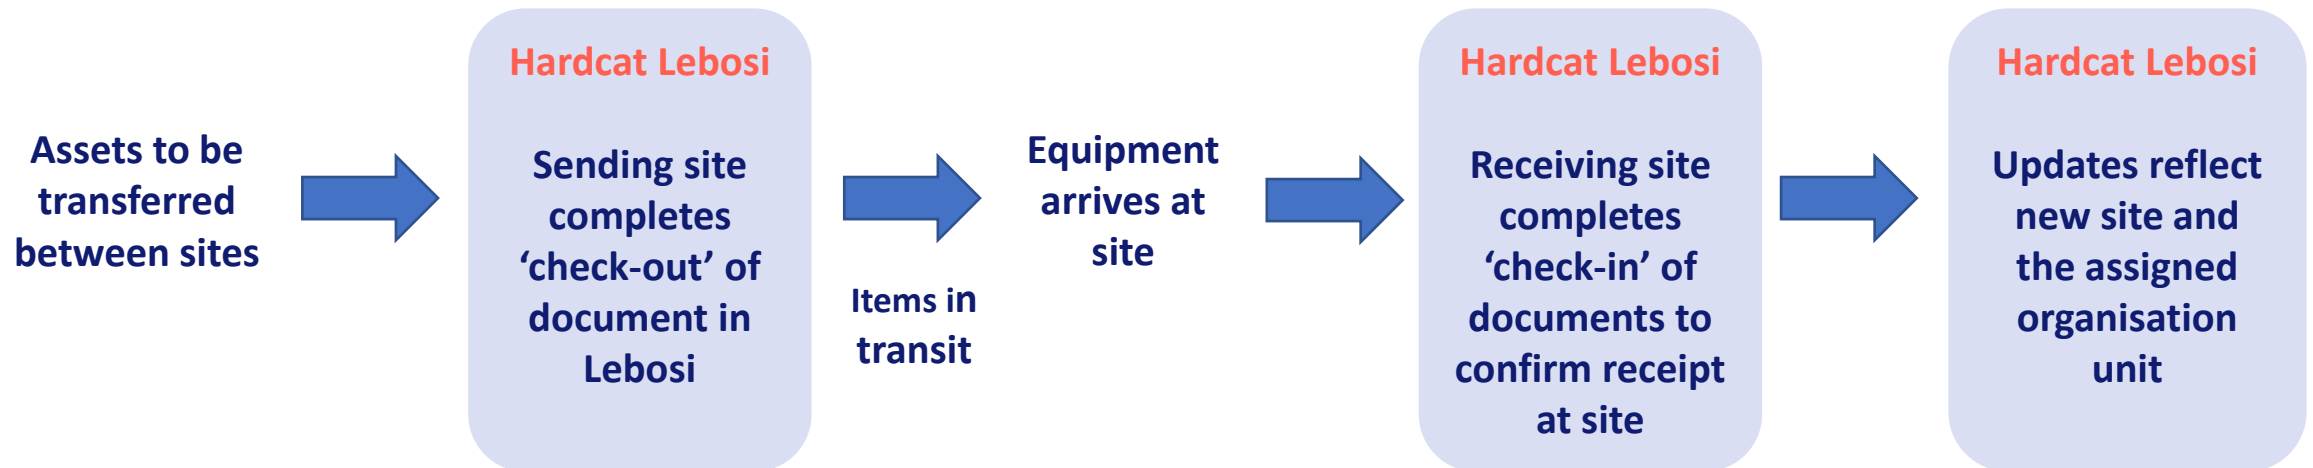

## Dashboard Information Tiles

- Issued assets and equipment
- Faulty assets and equipment at site
- Recalled assets and equipment
- Assets and equipment marked for check-out
- Assets and equipment locations
- Dashboards are configured for different users' roles

## Functions

- Issue and return
- Audit equipment
- Transfer equipment
- Change storage location
- Equipment/document search
- Reports
- Create equipment
- Dispose equipment

The transfer process tracks assets and equipment being moved between physical sites:

# Equipment issue and return

Before Hardcat

**Annual Cost \$45,600**  
3 minutes per person  
50 staff = 150 minutes  
Hours per year = 912  
Cost per hour = \$50

After Hardcat

**Annual Cost \$2,700**  
10 seconds per person  
50 staff = 9 minutes  
Hours per year = 54  
Cost per hour = \$50

# Equipment audit

Before Hardcat

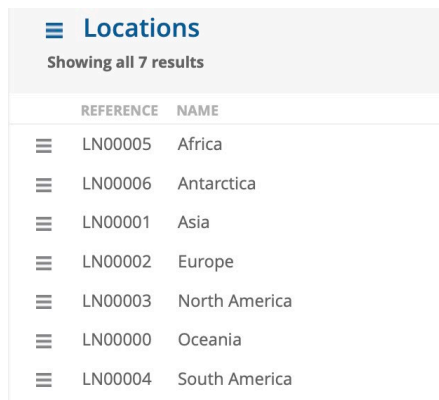

**Annual Cost \$25,000**  
3 minutes per item  
10,000 items = 30,000 minutes  
Hours per audit = 500  
Cost per hour = \$50

After Hardcat

**Annual Cost \$695**  
5 seconds per item  
10,000 items = 833 minutes  
Hours per year = 13.8  
Cost per hour = \$50

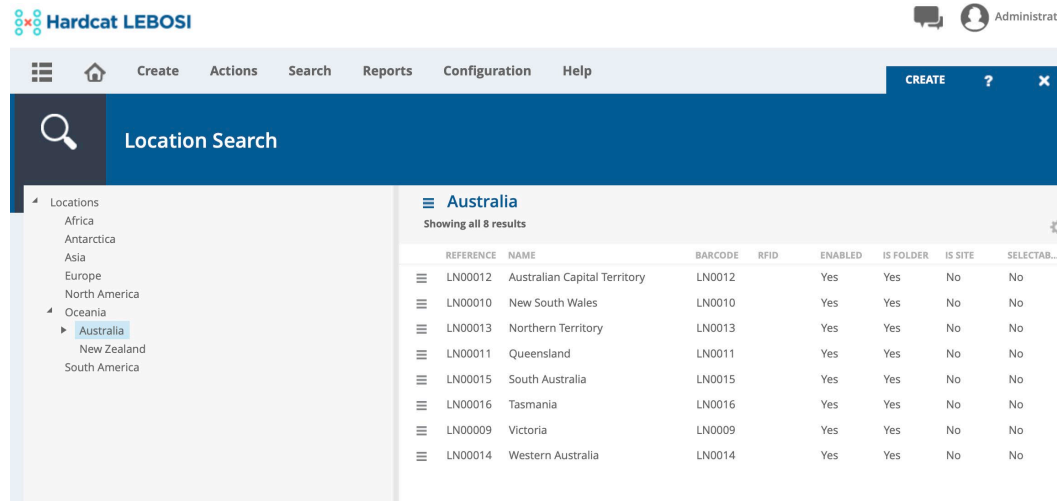

The location search shows an overview of all sites, with the ability to drill down into lower-level sites:

**Locations**

# Maintenance schedules

- Schedule maintenance jobs to ensure the maintenance of operational critical assets.
- Meet the needs for those responsible for equipment maintenance and safety testing.
- Control over reactive and preventative maintenance.
- More flexibility and automation in organising and scheduling of tasks to be performed.

The screenshot displays the 'Fire extinguisher service' configuration page in the Hardcat LEBOSI system. The page is titled 'MAIS000002 Fire extinguisher service' and includes a navigation bar with options like 'Create', 'Actions', 'Search', 'Reports', 'Configuration', and 'Help'. The main configuration area is divided into several sections:

- DESCRIPTION \*:** Fire extinguisher service
- ENABLED \*:** Yes (selected), No
- SCHEDULING BASIS \*:** Periodic
- JOB TYPE:** Check Fire Extinguishers
- ITEM TYPE:** Asset
- JOB STATUS:** Open
- SCHEDULE FROM:** Base Date
- JOB OWNER:** Melbourne West
- SUPPLIER:** (empty)
- JOB COLLATION:** Single
- BASE DATE \*:** 13/04/2021

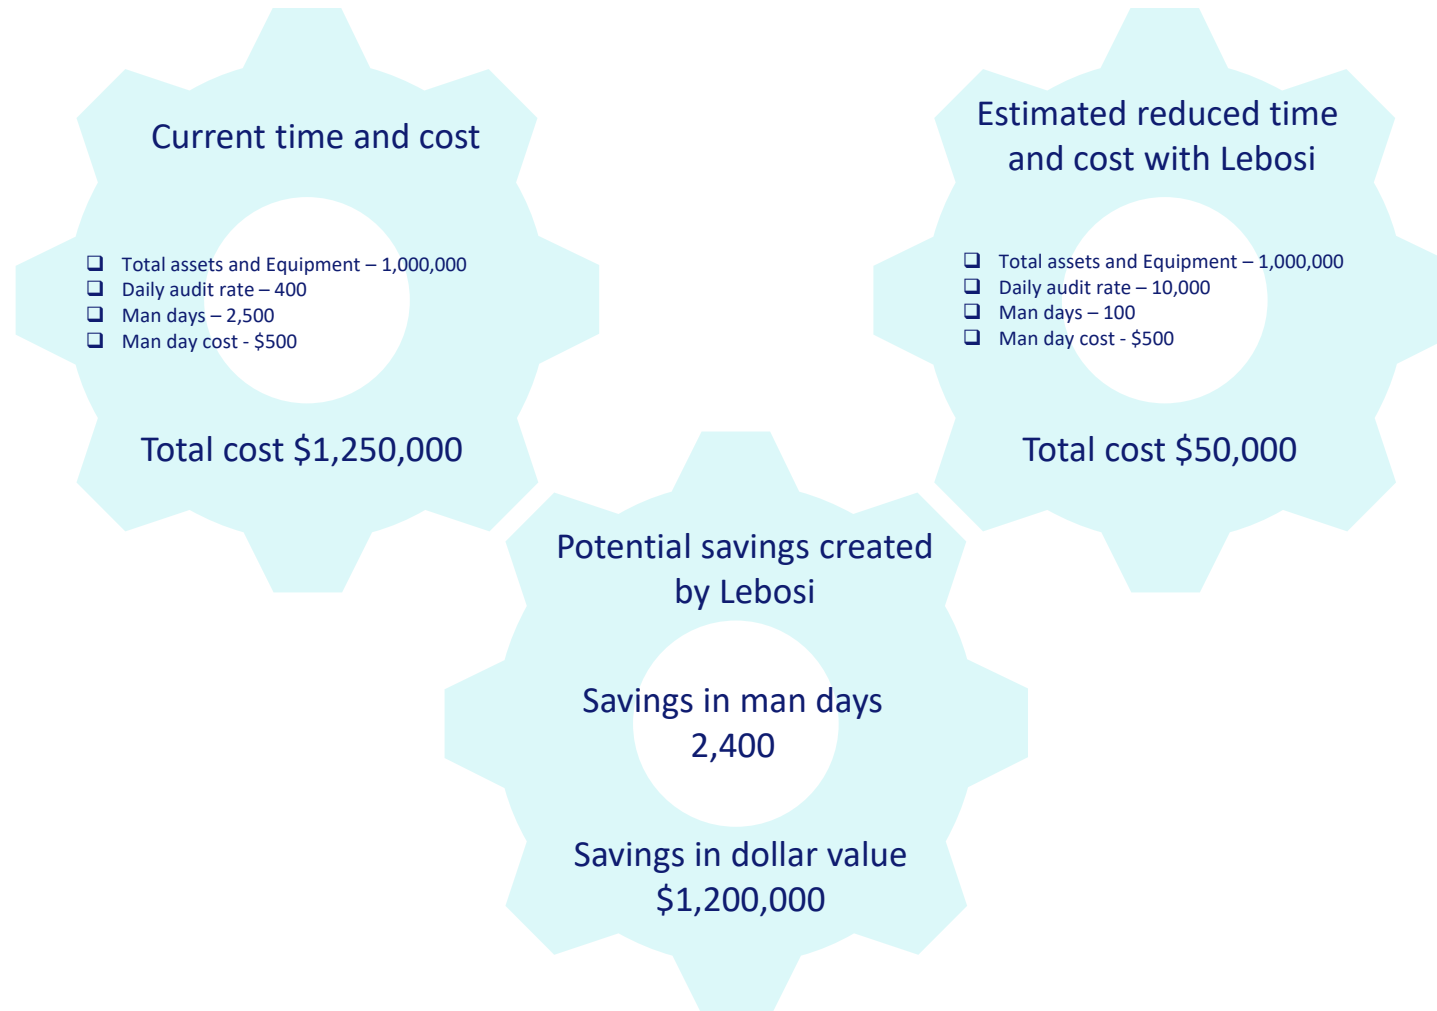

Below these fields are two main configuration sections:

- PROJECTION WINDOW:** 365
- JOB NOTIFICATION WINDOW \*:** 10
- JOB GENERATION WINDOW:** 3
- RECURRENCE PATTERN:** Monthly (selected), with options for Daily, Weekly, and Yearly. The selected pattern is 'Day 13 of every 1 month(s)'. There is also an option for 'The Second Tuesday of every 1 month(s)'.

At the bottom, there are tabs for 'Criteria' and 'Realised Assets'. The 'Realised Assets' tab is active, showing a table with the following data:

MATCH	ITEM KEY	ITEM DESCRIPTION	INCLUDE	INCLUDE DESCE...
Product Type	PDT000976	Fire Extinguishers	Yes	Yes

Based on 100 sites/locations  
Each site/location containing 10,000 assets
